

26th European Coarse Angling Championship

Rio Sorraia – Coruche - Portugal

20 to 26 July 2020

Invitation

Dear Mr. President,

The Portuguese Federation of Sportive Fishing has the honour of inviting the representative team of your country to take part in the 26th European Coarse Angling Championship, that will be held on the 25th and 26th of July in Coruche – Portugal.

Portugal is, as you may know, a warm and welcoming country and a place where sportive fishing is a sport of choice for thousands of Portuguese people, people who devote to this event and feel an enormous pride and gratitude for your attendance.

In name of F.P.P.D. and, in my personal name, we wish everyone visiting us an excellent stay and that this Championship will achieve your goals, in an environment of piece, friendship and, above all, “fair play”.

F.P.P.D.

The President

Carlos Baptista

Competition Venue

The Sorraia River is born in the parish of Couço and results in the junction of the Sor and the Raia Streams. Is the Portuguese Tejo's affluent with the biggest hydrographic basin, with approximately 7730km², receiving various streams along its course.

This river has a vital role for the region, since the time the Romans and the Moors settled here, using the

river for agriculture and communications purposes, to export products cultivated in the fertile lands of the Sorraia Valley, where they developed intricate irrigation systems that have been in use until our days.

Abound in the Sorraia River various species, namely barbells, breams, carps, ablets, mullets and carassius, having developed the artisanal fishing. This species richness has turned the Sorraia river into a privileged place for the practice of sportive fishing, being considered one of the best spots for national and international competitions.

For all these reasons, it's the chosen venue to host the 26th European Coarse Angling Championship.

Characteristics of the Sorraia River

- Width: ± 60 to 80 meters
- Depth: 1,5 to 3,5 meters
- The water is not very clear and as a slow stream.
- Sandy ground and margins, with some vegetation

Sector Location

Bait and Groundbait Limit

Baits	2.50 liters of baits, of which a maximum amount of 0.50 liter can be jokers. A maximum amount of 0.50 liter of earthworms is allowed in the total baits. Earthworms shall be presented entire (not-cut). Bloodworms are only meant for hooking and shall be presented in a "FIPSeD official size" box. After the control, bloodworms meant for hooking can be used for groundbaiting..
Groundbaits	20 liters groundbaits. Prepared (wet and sifted) groundbaits must shall be presented at the checks in graduated buckets. This amount includes earth, gravel, corn maize, wheat, hempseed, etc. and other additives that are not toxic for the fauna and the water environment.

04:00 pm	Publication of the Results
07:00 pm	Prize Giving Ceremony – “Parque Sorraia”
08:00 pm	Closing Dinner

ANTI-DOPING INFORMATION

TUE REQUESTS

A Therapeutic Use Exemption (TUE) is a certificate granted by an anti-doping organization (IF for international-level athletes, NADO for national-level athletes and MEO for athlete participating in an MEO event). The certificate is for a set prohibited substance, in certain dosages, with a limited period of validity. An application for a TUE must be based on a documented medical condition and diagnosis and the TUE will only be granted under strict criteria laid out in the International Standard of TUEs.

Athletes must absolutely avoid taking a medication with a prohibited substance without a valid TUE.

The presence of a prohibited substance or its metabolites or markers in an athlete's sample without a valid TUE is an Anti-Doping Rule Violation (ADRV), as are the use or attempted use of a prohibited substance or a prohibited method, possession, administration or attempted administration.

Athletes must therefore consult the Prohibited List <https://www.wada-ama.org/en/resources/science-medicine/prohibited-list> with their prescribing physician before taking a medication to ensure that no prohibited substance is contained in the medication needed. Athlete whose illness or condition requires treatment with a prohibited substance or method (listed in this link: <https://www.wada-ama.org/en/resources/science-medicine/prohibited-list>) must apply to CIPS for a TUE following the CIPS strict **TUE application process**. He shall then use the application form, which can be downloaded from the ITA website: <https://ita.sport/wp-content/uploads/2019/02/TUE-Form.pdf>

The TUE request has to be sent to the following address: tue@ita.sport

If the TUE is granted, the athlete will then be permitted to use the medication during the period of validity of the TUE without committing an Anti-Doping Rules Violation (ADRV).

Regardless of whether a TUE has been granted or not, athletes should always declare on the doping control forms filled out during sample collection any medications and supplements taken within the seven days prior to sample collection, and any blood transfusions in the three months prior for blood samples.

If a TUE has already been granted by a NADO or by a RADO, the Athlete in question does not have to apply for any additional CIPS TUE, as CIPS recognizes all TUE granted by NADOs and RADOs.
